

The Data Analytics Club, Faculty of Management Studies, ICFAI University Raipur, successfully organized a Masterclass on Advanced Excel Skills

The Data Analytics Club of the Faculty of Management Studies, ICFAI University Raipur, successfully organized a Masterclass on Advanced Excel Skills on 14th October 2025. The session was aimed at equipping students with in-depth knowledge and practical expertise in Excel, a vital tool for data analysis, reporting, and decision-making in today's professional environment.

The masterclass was conducted by Mr. Tridib Kumar Paul, a veteran IT consultant with extensive experience in data analytics and business intelligence. Mr. Paul began the session by emphasizing the importance of advanced Excel skills in both academic projects and industry practices.

Participants actively engaged in hands-on exercises, applying the concepts taught by the mentor. The interactive nature of the session allowed students to clarify doubts and explore practical applications of Excel in real-world scenarios.

The masterclass received overwhelmingly positive feedback from the participants, who appreciated the clear explanations, practical demonstrations, and the mentor's expert guidance. Students expressed that the knowledge gained would significantly enhance their analytical capabilities and efficiency in handling complex data tasks.

The event successfully fulfilled its objective of enhancing students' technical skills and reinforcing the importance of Excel proficiency in management and analytics careers.
